

EXCLUSIVE EVENT: SOLARWINDS DISCOVERY DAY

Time	Agenda
09:00	Registration - Tea and Coffee
09:15	Welcome, and Introduction: A high-level introduction to Prosperon Networks & run through of the workshop agenda.
09:30	AI-Led Observability: Smarter Monitoring for Smarter IT: In today's fast-paced IT environments, traditional monitoring isn't enough. AI-driven observability is transforming how IT teams detect, diagnose, and resolve issues before they impact business operations. Enhance performance monitoring, reduce noise, and provide actionable insights on a single pane of glass with SolarWinds Observability.
11:00	Mid-Morning Break -Tea & Coffee
11:30	Maximising Performance and Reducing Costs: Observability will get you there: In an era where efficiency is everything, IT teams must balance performance with cost optimisation. Observability is the key to achieving both. Discover how smarter monitoring can reduce costs and MTTR while achieving a more efficient IT operation.
12:15	Lunch and Networking
13:15	Service Desk Evolution: How AI is taking ITSM Tooling to the next level: Discover how AI-driven tools in SolarWinds Service Desk are automating repetitive tasks, improving ticket resolution times, and enabling IT teams to deliver faster, smarter support. This evolution of service desk technology can drive greater efficiency, reduce costs, and empower IT teams to focus on what truly matters.
14:00	Session Closed
